Evi Riga

Dr. Civil Engineer, Researcher, SDGEE, Aristotle University of Thessaloniki

Evi Riga, Civil Engineer, PhD on Geotechnical Earthquake Engineering is a Researcher in the Research Unit of Soil Dynamics and Geotechnical Earthquake Engineering (SDGEE) of Aristotle University of Thessaloniki (AUTH).

Her main research interests focus on the seismic vulnerability and risk assessment at different scales (local, urban, national, European), seismic hazard assessment, soil and site characterization in geotechnical and earthquake engineering, local site effects and their application in seismic hazard analyses and seismic codes, geotechnical earthquake engineering, soil dynamics, as well as GIS applications. She has worked as researcher in more than 20 research projects in Greece and EU, the majority of which are related to seismic hazard and risk assessment and is the author or co-author of more than 40 scientific publications and reviewer of international scientific journals.
